- *Improve memory*
- *Clarity of thought*

Quantitative Electroencephalogram (qEEG)

\$1,250.00

By monitoring 3D brainwave activity and patterns, this tool reveals how well your brain processes internal & external stimuli. It provides a precise starting point for developing optimal brain training strategies that enhance cognition, improve concentration and focus, and give you the ability to enter/exit states of performance at will.

Psychoneurophysiology Performance Program

\$3,950.00

Pre-training qEEG, 10 brain training sessions to optimize cognitive functioning & performance & a post-training Q map to track progress.

Optimize Performance

Helping you to recover faster and reach new levels of fitness, movement and performance through the NeuFit® method using electrical stimulation to achieve breakthrough results.

Neuromuscular Optimization

Package of 10 Sessions

\$1000

The NeuFit, FDA cleared, Neuro-Bio-Electric Stimulation technology uses pulsed direct current to assess neuromuscular fitness by mapping the signals between the brain and entire muscular system.

Analysis of body structure, posture & movement mechanics

Improve flexibility and balance

Neuromuscular re-education to enhance performance

Increase connection between brain and body

Healing, repair & regeneration

Optimize Body

The first step to optimizing your body is to know exactly where you are starting. Aperion's iDXA scan provides the most comprehensive data possible to give you the clearest baseline for metrics of current bone health, body composition & visceral fat. Whatever journey you're on to optimize your health, start here for ultimate peace of mind and precision tracking.

iDXA Body Composition Scan w/ Review \$85

Receive precise measurement of your lean muscle mass and body fat to strategically fine-tune and validate each step in the optimization process with our highly sophisticated body composition technology

iDXA Bone Density Scan w/ Review \$150

We evaluate your bone mineral density (i.e., bone strength) to guide us in recommending dietary and lifestyle choices to ensure proper bone density is maintained and/or enhanced.

IV Therapy

Efficiency is key in our fast-paced culture. From performance enhancement to recovery with friends or coworkers, get instant results with IV infusions that bypass the digestive system and deliver nutrients directly to the bloodstream.
